Just before the president's address the class gave "a little music," which would have been a credit to the Bos-tonians. Then Waldemar Young had his innings, and the way he "surred the animals up, as he said, referring to the nearby juniors, was something wenderful and kept the audience in a rear all the time. His address was not all of the light order, for before closing he referred elequently to that "inde-scribable something" which character-izes life at the High school, and spoke of the tender tess binding the hearis of the funder class to the school that had been a mother set them. Then fol-lowed "some more misse," as the pre-

close today. In the lower grades there will be exercises commemorative of the close of the school year, while in twelve of the larger schools there will be eighth grade graduating exercises. In the evening, at the Salt Lake theatre, the commencement exercises of the High school will occur.

The schools that will have graduates from the eighth grade into year are in Fremont, Franklin, Grant, Hamilton, Jackson, Lincoln, Lowell, Oquirth, Sunner, Wasatch, Washington and Webster. The exercises pertaining the graduation will be held in the various buildings, and, for the most part, will occur in the afternoon, a few of the schools holding the exercises in the forenoon. Friday will be given to taking up books, making reports, and, in a general way, closing the work of the year.

Big Crowd Admired the Car at the Passenger Depot Yesterday.

A great many people visited the Rio Grande Western's new diner "Salt Lake," which was on exhibition at the station yesterday. The outside finish of the car leads one to expect something beautiful on the interior, and expectations are fully realized. The car is one of the finest specimens of the builder's art. On entering, the eye wanders from the beautiful mahogany finish and the arched roof, frescoed in green and gold, to the tables set up for four persons on one side of the car and two on the other, covered with snowy-white linen and decorated with carnations and roses in rich profusion.

French Activity In Szechuen Gives Rise to Belief That They Will Obtain Possession of Province.

Victoria, B. C., May 31.-The steam Kinshiu Maru brings news from the Orient that Japan is said to be prepar-ing for war with Russia.

Mysterious Disappearance of a Man

With Money.

Inquiry was made at police headquarters last night for a young man wearing a black cutaway coat and stiff hat. His friend stated that between 9 and 90 clock the missing man took a hack to go to the circus, telling the driver to let him out at Eighth South and Third West, two blocks from the show grounds. At the point named the driver stopped and got down to open the door, but to his astonishment found the vehicle empty. He says he did not stop at all during the drive, and has no idea where or when the passenger got out. The missing man had not been found at 1:30 this morning. He was intoxicated, and had considerable money on his person, and his friends are fearful that he fell into the hands of circus roustabouts.

"It is quite clear," says the China Gazette, "that it is the intention of the French to create a freat. "Pashoda" in Szechuen. In no province is French political and missionary activity so great. While British enterprise, both political and missionary activity so great. While British enterprise, both political and commercial, neglects this streat province, the most important on the whole Yang Tse, the French are fart that their government has secured an undisputed title to. One fine day they will be badly distillusioned on this score, and if they do not wake up they will find the French firmly established near Chungking, with large mining concessions and an almost indisputable claim to the hinterfand."
